

What's a WASN?

A WASN is the WA student number issued by the School Curriculum and Standards Authority (SCSA) at the time of enrolment.

It is an 8-digit number and is sometimes called a SCSA or student number. This number can be found on school reports, including previous NAPLAN results. It may also be on a secondary student's SmartRider.

How to read the student report

A student's result is shown on an achievement scale for each assessment area. Below is an example only of the scale.

Your child's results are shown on the inside pages of this report. The achievement scale represents increasing levels of knowledge, understanding and skills demonstrated in the assessments.

Your child's results are shown by a black dot on each scale, along with:

- proficiency levels representing what students know and are able to do, at the time of NAPLAN testing (blue column)
- the national average (black triangle)
- the range of achievement for Year 9 students (light shaded rectangle).

The student's result exceeds expectations at the time of testing.
