Whole School Aboriginal Survival Technology Incursion

Dear Families,

We have been given the opportunity for National Geographic Photographer Phillip Green to present his Aboriginal Survival Technology presentation to all students from Pre-Primary to Year 6. This dynamic presentation will provide students with a visual and interactive experience of traditional technologies used by Indigenous peoples across Australia.

Phillip has a large collection of museum-quality artefacts that students will have the opportunity to explore in this highly acclaimed eco-science show. This experience will support children in their HASS studies, while also providing valuable insights into the life of the traditional custodians of our land.

DATE - Wednesday, June 12 2024

COST - \$7.00 per student

Please return the slip below with payment in the attached envelope to the office and place it in the allocated drop-off box no later than Friday, June 7.

Kind regards,
Mrs Mooney
